Subject: Kind request to nominate Officials to the 4th Edition of NESAC User Interaction Meet (NeUIM-2026), scheduled during 24–25 September 2026 – reg.

Dear Sir/Madam

The North Eastern Space Applications Centre (NESAC), under the Department of Space, Government of India, has been serving the NE region for over 25 years by harnessing space technology and geospatial applications for sustainable development, governance, disaster management, and natural resource management. NESAC has also promoted the effective utilization of space technology and geospatial applications through sustained outreach, capacity-building programmes, workshops, user interaction meets, and stakeholder consultations.

The 3rd Edition of the NESAC User Interaction Meet (NeUIM-2025), held during 25–26 September 2025, was attended by over 540 delegates from government, academia, research institutions, industries, and start-ups. The event provided a vibrant platform for showcasing innovative space and geospatial applications, exchanging knowledge, and strengthening partnerships.

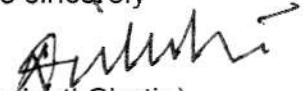

The 4th Edition of the NESAC User Interaction Meet (NeUIM-2026) is scheduled during **24–25 September 2026**. NeUIM-2026 will serve as a common platform to showcase emerging space and geospatial technologies, including Earth Observation, GeoAI, Digital Twins, Generative AI, and UAV Remote Sensing, while promoting knowledge exchange and collaboration for sustainable development and resilient governance.

We request your esteemed office to kindly nominate 1–2 officials from your department to participate in NeUIM-2026. We would also appreciate your department sharing its valuable feedback, success stories, and best practices on the utilization of space technology and geospatial applications during the event. The NeUIM-2026 portal is live at <https://neuim2026.in/> for registration, technical program details, and event updates. There is no registration fee for participation in NeUIM-2026.

Looking forward for a positive response from your side in this regards.

With kind regards,

Yours sincerely

(Dr Dibyajyoti Chutia)

an, Organizing Committee, NeUIM-2026
Head, GID, NESAC, Dept of Space
