**GUIDELINES ON QUALITY CUM COST BASED SYSTEM OF EVALUATION
FOR
TENDERED ITEMS FOR MIZORAM POLICE UNIFORM 2020 - 2021**

All items will be evaluated by 60(Q):40(C) formula, where 'Q' stands for quality of the item and 'C' stands for cost of the item. Evaluation will be done only for those samples accepted.

Detailed evaluation method:

Points on quality-Total point is 60. Items meeting technical specifications will automatically get 25 points. Remaining points will be obtained from the average of the points given by all board members out of 35 each from their personal assessments on the quality - with respect to material, make, design, shape, comfort ability, shade, size, weight, etc.

Points on cost - It will be calculated as; $\frac{\text{Lowest price}}{\text{quoted price}} \times 40$ (max. cost point)

Points obtained from quality and cost will be aggregated together for each sample which is the total point scored by the sample. Sample scoring the highest in the aggregate will be declared as winner of the bid. Evaluation of quality of each sample by the board members shall be done separately and secretly.
