

**MIZORAM POLICE PRESS STATEMENT**

**No.F.14018/1/19-SMC/PART FILE/413**

**Dated Aizawl the 8<sup>th</sup> December, 2022**

With the growth and development of a country, ways and means of livelihood are also changing day by day. In the same manner, various companies are being established/coming from outside the state with an aim to attract investment by offering very high rate of interests, lucrative offers etc. In this regard, it is recommended that every investor should make sure of the following points, before making such investments and/or accepting these offers:-

1. No person is allowed to run financial investment company or estate without obtaining prior permission from Competent Authority.
2. Before starting operation in the state of Mizoram, every financial establishment shall obtain no objection certificate from the Deputy Commissioner of the district, indicating the details of its business under his local jurisdiction.
3. Any company offering interest rates higher than RBI rates should raise suspicion and there are fair chances of involvement in fraudulent activities.
4. **Till date, there is no Regulatory Authority of Crypto currency in India, therefore the investor is solely responsible for risks associated with its safety and security. One should also be fully aware that there are also fraud online investment schemes, alongside crypto currency investments.**

Since, there is a mushroom like growth in investment schemes and new companies/enterprises are coming up every day, therefore, it is recommended that reliability and genuineness of such entities should be thoroughly checked before making any investment. Be a prudent investor, always.
